

ADHESIVE MANUFACTURERS

2563
rev. 4
June 2003

Sequentia recommends the following adhesive manufacturer. This company has demonstrated their commitment to the frp industry by developing an frp adhesive based upon extensive laboratory testing and field application in a variety of real life conditions. They are committed to service before and after the sale by providing a fully trained technical and customer service staff to answer questions from distributors, contractors and end users.
