

G-III Sidewall Finish!

G-III is a durable, high-gloss fiberglass finish. It has an advanced resin system engineered to be compatible with today's variables associated with total composite wall and roof product assemblies.

- Manufactured with a smooth gel-coat, providing attractive, automotive finishes
- Available in a standard surface finish or with a less fiber show finish
- Scratch and abrasion resistant; withstands dents, dings, mold, and mildew
- Shipped standard with a surface protection film
- In-field repair, on-time delivery, and warranty support
