Re: Sequentia Branded Corrugated Super 600 frp Product Line Simplification

Crane Composites is committed to providing exceptional products and service to our valued customers. As we look for ways to improve productivity, operational efficiencies and most importantly, our product offerings, in order to best serve our customers, we have made the decision to simplify our Super 600 product offering. We are announcing that we will no longer produce for inventory the Super 600 colors of Terra Cotta, Sky Blue, and Graphite. The Terra Cotta, Sky Blue, and Graphite products continue to be available for production under the 12K sq ft program. Any remaining inventory of the Super 600 Terra Cotta, Sky Blue, and Graphite will be available to customers on a first come first serve basis through December 19, 2008. During this time period, we will also be waiving the 10 piece incremental purchase requirement for these colors. **We will continue to stock the following Super 600 colors: Clear, Hunter Green, and White in 8', 10' and 12' lengths.**

Below we have listed the part numbers that Crane Composites will no longer produce for inventory:

Sequentia Item#	Description	Size	Color
C25S.335	Super 600	26"x8'	1838 TerraCotta
C25S.344	Super 600	26"x8'	725 Graphite
C25S.341	Super 600	26"x8'	1456 Sky Blue
C25S.337	Super 600	26"x12'	1838 TerraCotta
C25S.346	Super 600	26"x12'	725 Graphite
C25S.343	Super 600	26"x12'	1456 Sky Blue

Should you have any concerns about this change, please contact Rueshon Dantzler at 815-467-8917 or me at your earliest convenience.

Sincerely,

Drew Franzen
