

# DAYLIGHTING PANELS with SunStrong® | Duralite®

durable & sustainable frp panels

For daylighting panels with superior dependability, one product rises above the others: Crane Composites fiberglass reinforced plastic (FRP) daylighting panels. Our SunStrong and Duralite frp panels are engineered to survive harsh environments.

Count on Crane Composites daylighting panels for their moisture and corrosion resistance and a surface that won't rot, rust or mildew. Daylighting panels are available in various colors and weights to customize the light transmission value needed. Crane Composites provides a daylighting product that meets performance goals while maintaining a budget. We combine resin systems, profiles, reinforcements and weights to engineer custom solutions. No matter which Crane Composites daylighting system you select, the end result is a simple, sanitary solution that's designed to last.

## RESIN SYSTEMS

### SUNSTRONG

Utilizing an advanced polymer resin system, SunStrong is designed with premium weathering and exceptional color stability that is up to 10 times greater than general resins. This resin is combined with chopped fiberglass and reinforcement that provides protection in a wide variety of climates while eliminating fiber-bloom and backed with a twenty year warranty

### DURALITE

Acrylic-modified resin system designed to improve weatherability and backed with a ten year warranty

### GENERAL PURPOSE

Standard general purpose resin system with an eight year warranty

## APPLICATIONS

- Skylights
- Sidelights
- Covered Walkways
- Canopies
- Wall Systems

sustainable frp panel solutions:

# DAYLIGHTING PANELS with SunStrong | Duralite

## STANDARD PROFILES

4.2" x 1-1/16" Rib | Profile #008

Ridgelight | Profile #297

2.67" x 7/8" Rib | Profile #009

Grand Rib III | Profile #509

7.2" x 1-1/2" Box Rib | Profile #455

R-Panel | Profile #162

5.33" x 1-3/4" V-Beam | Profile #041

2.5" x 1/2" Rib | Profile #010

Drawing not to scale. Please obtain a sample of the product before making a final selection at [FRPSamples.com](http://FRPSamples.com)

Above are a few of our standard profiles. Crane Composites Engineered FRP does have the ability to customize tooling to manufacture specific profiles. Additional and more detailed drawings are available upon request.

## PRODUCT SPECS

### WEIGHTS

6 oz. | 8 oz. | 12 oz.

\*Additional weights available via a custom order

### Reinforcement

Standard | random strand chopped glass

High Strength | woven roving

## COLOR & LIGHT TRANSMISSION

Color	min	typ	max
CLEAR	75%	80%	85%
WHITE	40%	45%	50%

\*Colors shown are the most widely used in translucent applications. Percentages of transmission shown are nominal values with a tolerance of + or - 5% Additional information available upon request. Light Transmission based on 8oz. product. Additional colors available via a custom order.

Methods of test: per ASTM D1494

## MANUFACTURING FOR OVER 60 YEARS!

A global leading provider of resilient wall and ceiling coverings. **Kemlite** was established in 1954 and the company changed names to Crane Composites in 2007. Crane Composites is headquartered in Channahon, IL and all our products are manufactured in the United States. We work with hundreds of distributors, ensuring our products are easily accessible and readily available to our customers.
