

INDUSTRIAL PANELS with IsoTuff® | Duralite®

durable & sustainable frp panels

For industrial panels with superior dependability, one product rises above the others: Crane Composites fiberglass reinforced plastic (FRP) industrial panels. Our IsoTuff and Duralite frp panels are engineered to withstand corrosion.

Count on Crane Composites industrial panels to withstand corrosive environments. They are also moisture resistance and a surface that won't rot, rust or mildew. Our panels are specifically engineered for use in refineries, paper mills, mining operations, wastewater facilities and any application where corrosion may be a factor. Crane Composites provides products that meets performance goals while maintaining a budget. We combine resin systems, profiles, reinforcements and weights to engineer custom solutions.

RESIN SYSTEMS

ISOTUFF

Premium resin system uses an Isophthalic Neopentyl Glycol (NPG) . For use where a Class A per ASTM E-84 fire rating is required

DURALITE

Acrylic-modified resin system designed to improve weatherability and backed with a ten year warranty

STANDARD PROFILES

Drawing not to scale. Please obtain a sample of the product before making a final selection at FRPSamples.com
 Above are a few of our standard profiles. Crane Composites Engineered FRP does have the ability to customize tooling to manufacture specific profiles. Additional and more detailed drawings are available upon request.

PRODUCT SPECS

WEIGHTS

12 oz. | 16 oz.

*Additional weights available via a custom order

** Not every profile is available in all weights, please contact customer service to review available weights per profile.

Reinforcement

Standard | random strand chopped glass

High Strength | woven roving

MANUFACTURING FOR OVER 60 YEARS!

A global leading provider of resilient wall and ceiling coverings. **Kemlite** was established in 1954 and the company changed names to Crane Composites in 2007. Crane Composites is headquartered in Channahon, IL and all our products are manufactured in the United States. We work with hundreds of distributors, ensuring our products are easily accessible and readily available to our customers.
