

FRP Kemlite Fiberglass Cooling Tower Panels

The Winning Formula

Now, **Crane Composites, Inc.** (formerly *Kemlite Company, Inc.*), the world's largest manufacturer of FRP, can supply you with all of your cooling tower panel needs.

Crane Composites offers high performance, fire-rated and non-fire-rated composite fiberglass reinforced plastic panels, engineered specifically as casings and louvers for cooling towers.

All Fiberglass Cooling Tower Panels meet or exceed the requirements of:

- ♦ ASTM D-3841 - "Specification for Glass Fiber-Reinforced Polyester Plastic Panels"
- ♦ CTI Code for Standard Specification, Bulletin STD-131 - "Fiberglass Reinforced Plastic Panels for Application on Industrial Water Cooling Towers"

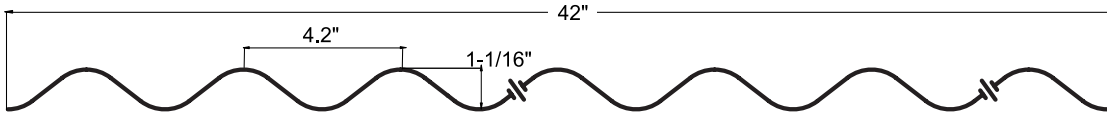

Fiberglass Cooling Tower Panels Are Perfect For:

Counterflow Towers ♦ Crossflow Towers ♦ Field Erected Towers
Factory Assembled Towers ♦ New & Repair Installations

Crane Composites will meet your specific design needs!

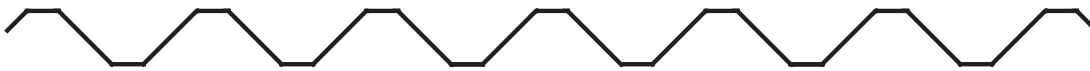

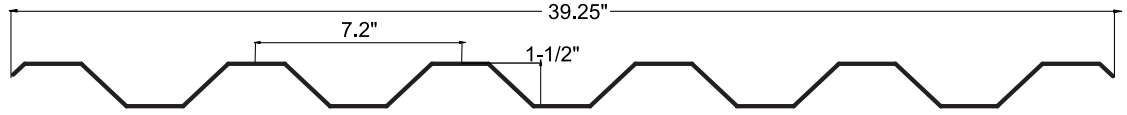

- ♦ High strength panels for areas where ice conditions and high wind loads are a concern
- ♦ Various surface finishes for harsh environments including Gel Coat
- ♦ Various surface finishes for buildings where an enhanced and longer performance life is desired
- ♦ Custom profiles, colors, and weights are available on request
- ♦ Panels can be manufactured to specific length requirements to minimize panel laps
- ♦ Qualified sales and technical staff to support your unique cooling tower needs
