

LEED Documentation for Fast Grab Adhesive | R53828

September 11, 2013

To Whom It May Concern:

This letter has been sent to verify the VOC content of Crane Composites Fast Grab Adhesive. The current VOC content of this product is 2.6 g/L. Accordingly, the VOC content of Crane Composites Fast Grab Adhesive is less than the current VOC content limits of California's South Coast Air Quality Management District (SCAQMD) Rule #1168.

Crane Composites Fast Grab Adhesive is eligible for the U.S. Green Building Council's LEED 2009 Green Building Rating System for New Construction & Major Renovations IEQ credit 4.1.

In addition, our products do not contain any urea formaldehyde. Indeed, we are proud to be a non urea formaldehyde company.

Thus, Crane Composites Fast Grab Adhesive is also eligible for the U.S. Green Building Council's LEED 2009 Green Building Rating System for New Construction & Major Renovations IEQ credit 4.4

For the use of this product, you could be contributing up to two points under the Indoor Environmental Quality v3 Rating System.

These statements are based on the Crane Composites product referenced above and the formulation of the product and the regulations in place according to the date of this letter.

Please use this letter for specification purposes or call 1.815.467.8600 with any further questions.
