DISCOVER THE DIFFERENCE
frp surface systems

Recreational Vehicle Panels **NOBLE** Sheet Exterior Sidewalls

frp Fiberglass Reinforced Panels

why **frp**? why **NOBLE**®?

sidewalls vs the elements

When it comes to RVs, what's on the outside counts! That's why Crane Composites Noble exterior sidewall panels are specifically engineered to provide unsurpassed performance and beauty.

dependable performance

Count on Crane FRP panels for extremely strong, durable panels that provide resistance to mold, mildew, bacteria growth, stains and chemicals. We deliver quality products on time and offer short lead-times to accommodate our customers' schedules.

leading the way

As the leading manufacturer of fiberglass products for the RV industry, we stand behind everything we do. From product information and service, to testing and technical support, all Crane products are backed with the resources you need, when you need them.

The **NOBLE** Difference

Our Noble lineup of sheet glass exterior sidewall panels revolutionized the market and continues to set the standard for the industry. Utilizing our patented moving mold process, our Noble sheet glass sidewalls are vacuum infused eliminating the need for any glue or adhesive. The result is a durable, exceptionally high-gloss, smooth, gel-coated finish built to withstand the elements and designed to distinguish Crane RV sidewalls from the rest. Composed of an advanced resin system and fiberglass, all Crane Composites NOBLE RV exterior sidewall panels provide resistance to dents, dings, mold, mildew and bacteria growth. The specially formulated gel-coat surface is highly scratch and abrasion resistant, adding years of life to an RV. Noble panels come in a variety of finishes, thicknesses, colors and sizes for a variety of applications. They are designed for both laminated and free-hung wall applications and are preferred where full-body paint is required. It's only Noble, if it's Crane!

Not just another RV sidewall
